Contoh Logika Proposional

• Statement dalam Bahasa C if $(a < b \parallel (a >= b \&\& c == d))$

Apakah pernyataan dapat ditulis menjadi if (a < b || c == d) ???
Apa alasanya ?
a=5; b=7;

Apa berlaku untuk

$$(a == b+1 \&\& c < d) \parallel (!(a == b+1 \&\& c < d) \&\& (a == c \parallel b == c))?$$

Disederhanakan menjadi:

$$(a == b+1 \&\& c < d) || (a == c || b == c)$$
